FEATURED WEBSITE

[Cardiology.org](#)

Cardiology.org is a web site maintained by the Clinical Exercise Physiology Consortium for educational purposes. The consortium is led by Dr. Ashley, Dr. Myers and Dr. Froelicher.

Non-funded research and educational opportunities for pre-medical, medical, and post-medical US and International graduates are available through Stanford. The Stanford requirements for visiting scholars must be met including verification of external funding.

NEWSSTAND EDITOR'S PICKS

[New Leaflet Thrombosis After TAVR Seen Out to 3 Years: OCEAN-TAVI](#)

No added anticoagulation was prescribed when subclinical leaflet thrombosis was observed, and cumulative CV event rates seemed unaffected.

[Canon Medical Systems Launches Alphenix Interventional Imaging Line](#)

The new flagship platform of systems incorporates all-new features that enable clinicians to deliver images with clarity and precision without compromising workflow and while prioritizing low dose.

[Delayed Clot Removal Still Improves Quality of Life Post-Stroke](#)

Patients surveyed in DEFUSE 3 trial had better quality of life with thrombectomy up to 24

hours after symptom onset compared to medical therapy alone.

[How one center boosted palliative care use for advanced heart failure patients](#)

A nurse navigator-led program at Providence St. Vincent Medical Center in Oregon helped the hospital double its palliative care referral rates for advanced heart failure patients considered to be at high risk of readmission.
